

A smart locker system for secure and customizable storage!

Q-Lock is a smart vending machine for smooth delivery of work clothes, protective equipment, tools, consumables, items the users can loan such as keys, handscanners, mobile phones etc.

With our smart vending machine, you ensure that the items are always available to your staff in a secure and safe way, 24/7 every day of the year

Q-Web[®]

Description

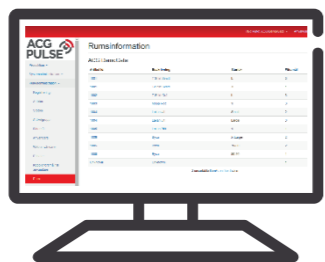

In our user-friendly web interface Q-Web[®], it is simple to manage and administer users, items and statistics.

The statistics pages give an overview of demand, current status, and expected frequency of use.

Moreover, the software is customizable to suit customer requirements.

Q-Web[®]

Q-Web[®] is a web-based logistics program for item management for the Q-Web[®] Products.

Description

The Q-Lock is a flexible smart locker system that allows 24 access to articles. Access to items requires authorization via card reader identification.

Q-Lock handles all types of articles, such as:

- items which are personal or generic
- items intended for lending

The Q-Lock is available in floor standing or wall mounted lockers.

The Q-Lock Master Column has a display and card reader, and can be extended and supplemented with different of additional Supporting Columns.

The storage compartments are available in different sizes to fit a variety of products and applications.

One-way items

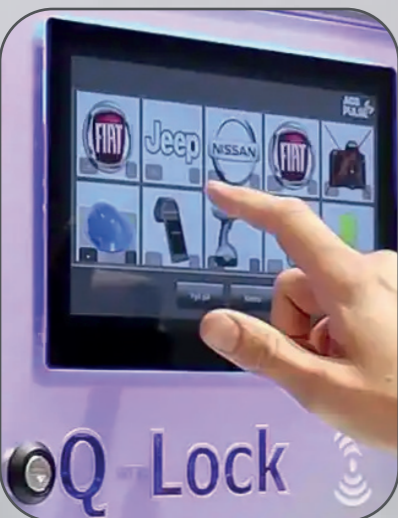

The one-way function gives you the opportunity to control which users get access to which articles. This increases the safety of your employees, who always get the right protection for the job they are doing.

Users can only collect items for which they are authorized.

Loan function

The loan function gives you the opportunity to control which users get access to which items. Also provides the ability to control how many items each user can loan at the same time.

Via Q-Web® you can see in real time which /what items that are available in Q-Web Lock, what is on loan and by whom.

Keep items charged

Make sure that your rechargeable items are always kept charged.

The Q-Lock can be provided with charging possibilities. Make sure that your rechargeable items are always kept charged. Charging of items such as scanners and cell phones can advantageously be done in Q-Lock.

Q-Lock provides a high service level by allowing 24 hour access to articles.
