# Q-Web® Trust

## Description

Q-Trust is a self-service system for picking up and returning items in unmanned storage areas.

The system gives your employees easy access to equipment, PPE and workwear 24 hours a day, all year round.

## Q-Trust

### Dimensions (mm)

Width 700  
Depth 360  
Height 70

For a tailor-made complete solution that is adapted to the customer's wishes and needs. The Q-Trust can advantageously be combined with other Q-Web® Products such as

- 📶 Q-Gate
- 📶 Q-Soil
- 📶 Q-Cabin and others

*Q-Trust can be used with a variety of items in the same scanner, and that RFID (2 way) and non-RFID (1 way) can be used on the same scanner*

The Q-Trust station consists of RFID UHF antenna / reader, touch screen, computer and card reader.

- 📶 Scan items to storage areas (stock room)
- 📶 Self-service of withdrawal of items by the users
- 📶 Return of soiled items

# Q-Web®

## Description

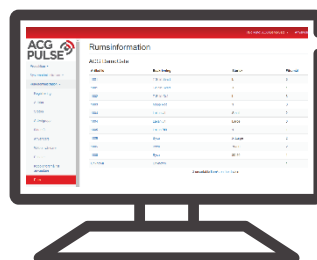

In our user-friendly web interface Q-Web®, it is simple to manage and administer users, items and statistics.

The statistics pages give an overview of demand, current status, and expected frequency of use.

Moreover, the software is customizable to suit customer requirements.

## Q-Web®

Q-Web® is a web-based logistics program for item management for the Q-Web® Products.
